29 May 2002

Dear Mr Rajendran

Thank you, for your enquiry on behalf of your membership.

Your members are welcome to join our Institution as Affiliate members. They would be required to complete an application form and pay an application fee of 28.00 pounds sterling. Once elected to our membership they would be required to pay an annual subscription, which for 2002 is 67.00 pounds sterling.

If they wished to proceed to other levels of membership they would need to meet our Academic and Initial Professional Development criteria and demonstrate their competence and commitment against the standards set out by the Engineering Council (UK) under SARTOR 3.

The benchmark standard for registration as a Chartered Engineer and Corporate Member of IMechE is a 4 year UK MEng degree accredited with IMechE or equivalent qualification.

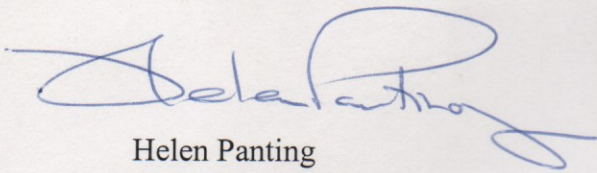

I am afraid we do not accredit any Indian degrees. It is therefore likely that individuals would have to complete Top up exams through the Engineering Council (UK) Examinations to meet our standards. Further information is available from the Engineering Council (UK)'s website at www.engc.org.uk/exams

If you would like the application forms for you to send out to your membership please let me know, alternatively you could advise them to look at our website www.imeche.org.uk if they have access.

Please find enclosed some details explaining our criteria, and your mailing list returned.

Yours sincerely

Helen Panting
Executive Assistant

Dear Sir

Recruitment & Publications

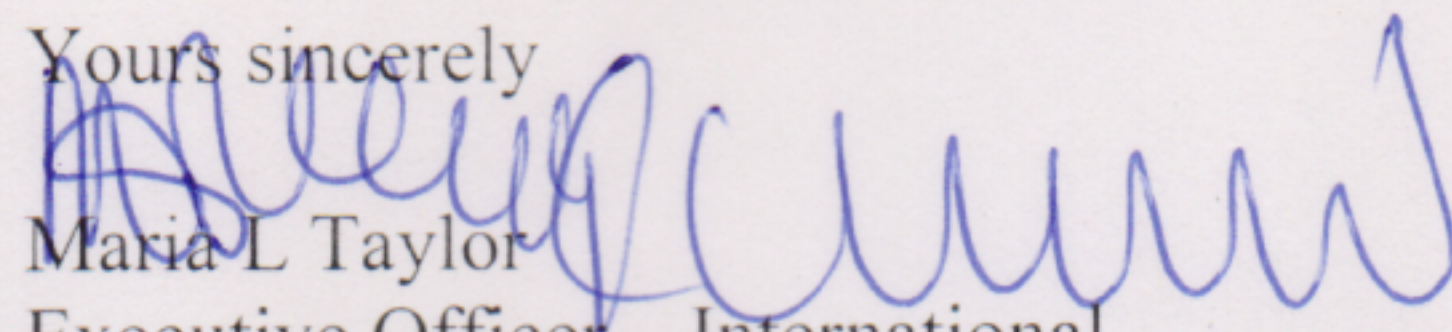

Thank you for your letter of 4 April with your proposals for acting on behalf of IMechE in the field of recruitment and enclosing details of persons you wish to recommend for membership of this Institution.

I have passed the material on to our Membership Department who will be able to provide you with the correct advice. You will receive an additional response from that department shortly.

In the meantime, I have enclosed for your reference a recent issue of *Professional Engineering*, the journal of IMechE and a current copy of the Professional Engineering Publishing catalogue in order that you can review our published material.

Many thanks and kind regards

Yours sincerely

Maria L Taylor
